

Made2Aid .co.uk 24 Hour Postural Management Training

Our 24 hour Postural Management session will demonstrate the best way to identify product suitability towards a client's postural needs and how these can be used within a 24 hour postural management programme.

Our training is a workshop that allows you to get hands on with product that are used within postural management. Made2Aid is a product search engine so unlike other free CPD training offered by product manufactures our aim is not to actively promote or sell one product, we offer free advice on a whole range of products that are available by multiple suppliers.

This training programme will demonstrate the best way to identify product suitability towards a client's needs.

Learning Objectives/Outcomes:

- How best to relate product searching and suitability to a client's condition and their unique presentation
- How to effectively use products within a 24 hour postural management programme to maintain good posture or where necessary improve posture
- The importance of Postural Management and the implications of incorrect posture
- Identify clients postural needs and establish how to support the client in a 24hr scenario:- Bathing, Seating, Therapy & Sleeping.

The positive outcomes from achieving good posture
